ACCOUNTING, BOOK KEEPING

We swiftly and accurately process all accounting paperwork. We remind you of upcoming tax deadline but also provide last-minute (or even emergency) statements of accounts. We process all types of tax documents (VAT, road tax, income tax for natural persons and legal entities, etc.). We assist you in completing (monthly, quarterly, yearly) statements for the Statistical Office. We prepare the necessary documents for a bank loan request, financial leasing, and assignment of receivables. We also provide the possibility of regular result reporting and we do all this while constantly keeping you in the loop, consulting with you at any time.

TAX RECORDS

We prepare accurate summaries of income and expenses, and an overview of property and liabilities. We calculate your taxes and remind you of deadlines in the "tax calendar". We present a statement of receivables before or after deadline dates.

PAYROLLS AND HUMAN RESOURCES

We provide and process all the administrative paperwork concerning your employees. We process payrolls and monthly statements for the Czech Social Security Administration and insurance companies, registration forms for retirement, and deliver them to the authorities as well. We oversee employee registration procedures. We perform annual tax accounting. We issue certificates on taxable income, certificates for other authorities, and credit sheets. We also offer consulting concerning human resources and payroll. We draw up employment contracts in accordance with the law.

TAX CONSULTING

We offer both continuous and single tax consultations. We not only advise you on how to process tax returns, but summary reports as well. We ensure that your tax return deadline gets postponed by means of discretionary powers. We will represent you in the tax procedure including the submission of solutions. When you choose to use our services, we optimize your tax duties.
